

IC 20-12-33

Chapter 33. Indiana University: Public Health Department

IC 20-12-33-1

Public health department authorized

Sec. 1. As soon as practicable after February 28, 1945, the trustees of Indiana University are authorized to establish in the medical school a department of public health and to provide adequate equipment and competent personnel to carry out the purpose of this chapter.

(Formerly: Acts 1945, c.66, s.1.) As amended by P.L.2-1988, SEC.623.

IC 20-12-33-2

Short courses in public health for professionals authorized

Sec. 2. In addition to instruction of students in public health problems, personnel and equipment shall be provided, which in conjunction with the state department of health may provide short courses in public health practice to physicians, in dental health practice to dentists and in public health for nurses and all other persons desiring to develop a technical understanding in public health matters. Such courses may also be provided for lay groups in phases of public health and sanitary measures appropriate to the occupation or profession of such group, and such short courses may be held at any convenient place within the state; courses for nurses shall be planned in cooperation with the director of nursing education within the university.

(Formerly: Acts 1945, c.66, s.2.) As amended by P.L.2-1992, SEC.732.

IC 20-12-33-3

Tuition fee for short courses

Sec. 3. The school of medicine shall be authorized to charge and collect a tuition fee for such short courses, but the amount of such fee shall be no greater than actual cost, and if in the discretion of the trustees acting in conjunction with the state department of health, a tuition fee at cost would tend to discourage attendance in any short course, the tuition fee may be decreased or waived entirely as to all persons taking the course.

(Formerly: Acts 1945, c.66, s.3.) As amended by P.L.2-1992, SEC.733.
